Here at the Network, we often receive emails or calls from women seeking health care information about specific procedures or tests. Something different's been happening recently, however: we've received several messages from women asking the Network to explore the safety of a drug commonly used in fertility treatments: Lupron® (leuprolide acetate).

Systemic anaplastic large cell lymphoma (ALCL) is an aggressive CD30+ non-Hodgkin lymphoma. Anaplastic lymphoma kinase-positive (ALK+) ALCL is associated with the NPM-ALK t(2;5) translocation, which is highly correlated with the identification of the ALK protein by immunohistochemistry. ALK+ ALCL typically occurs in younger patients and has a more favorable prognosis with 5-year survival ...

Cause And Effect Of Forest Depletion. INTRODUCTION Echo systems around the world help sustain life for millions of species. Echo systems that are mainly forests provide a home for a large majority of the species alive. Therefore the trees in these forests are considered to be the most important species. Although it is true, that most species are not able to sustain without each other.

Highlights Two new stress markers are described that combine variables of the two major stress systems in humans. The two markers are amylase over cortisol (AOC) and cortisol over amylase (COA). In a sample of subjects with early life adversity, we show the usefulness of AOC. The routine use of both markers in allostatic load studies is discussed.

The salivary alpha amylase over cortisol ratio as a marker ...

Evolutionary psychology is a theoretical approach in the social and natural sciences that examines psychological structure from a modern evolutionary perspective. It seeks to identify which human psychological traits are evolved adaptations – that is, the functional products of natural selection or sexual selection in human evolution. Adaptationist thinking about physiological mechanisms ...

Attachment theory is a psychological model attempting to describe the dynamics of long-term and short-term interpersonal relationships between humans. "Attachment theory is not formulated as a general theory of relationships; it addresses only a specific facet": how human beings respond in relationships when hurt, separated from loved ones, or perceiving a threat.
