"The questions Ian Hutchinson has been asked, and which he answers in this book, are the questions I have been asked and attempted to answer. Hutchinson is a scientist and a Christian, and has a pastoral heart for those who have deep and enduring questions about the Bible and

science and these questioners don't want pat and simplistic answers.

Can a Scientist Believe in Miracles? - InterVarsity Press

The saying "quality over quantity" holds true in many facets of life—so why not use this mindset to plan productive meetings?. If you read our last post on the psychology of routine meetings, you know the difference between meetings that make teams more efficient and ones that aren't truly essential. In this post, we'll look at three key areas where social science can help us reinvent ...

The Science of Productive Meetings For Your Team - Jell Blog

What does science say about the value of peer support? Much evidence supports that peer support is a critical and effective strategy for ongoing health care and sustained behavior change for people with chronic diseases and other conditions, and its benefits can be extended to community, organizational and societal levels.

Science Behind Peer Support | Peers For Progress

Despite the limitations of traditional lectures, many institutions are forced to offer high-enrollment introductory science courses. Many professors who teach these courses feel that lecturing is their only option, and can only dream of what they could accomplish in smaller classes.
