Assessment centre exercises. The exact exercises used by individual employers is likely to vary from one organisation to another; however, below is an overview of the type of exercises you can expect to encounter as part of an assessment centre:

Assessment centre exercises - Talent Q

C Programming. The notes on these pages are for the courses in C Programming I used to teach in the Experimental College at the University of Washington in Seattle, WA. Normally these notes accompany fairly traditional classroom lecture presentations, but they are intended to be reasonably complete (more so, for that matter, than the lectures!) and should be usable as standalone tutorials.

C Programming - Eskimo

Tutorials & Exercises. Math Review. Exponents: These are simple exercises where numbers in Scientific Notation are multiplied or divided and you are required to enter the value of the exponent. Percentage Calculations: This is a simple exercise in calculating and manipulating percentages. Direct and Inverse Proportionality: This is a simple exercise in manipulating proportionalities.
