Solution of an equation. Every equation in the unknown  $x$  may be rewritten as  $=$  by regrouping all terms in the left-hand side. It follows that the solutions of such an equation are exactly the zeros of the function. In other words, "zero of a function" is a phrase denoting a "solution of the equation obtained by equating the function to 0," and the study of zeros of functions is exactly the same ...

The e-mail program Outlook is used by many companies and private individuals to help organize messages and appointments in an Outlook calendar. Outlook's search function is indispensable to people who receive and answer many e-mails daily. The advantage is that you do not have to search through all folders, but instead can view a filtered section of relevant messages by entering a search term.
