Experimental Procedure. Note: There are two different ways to do the experiment. In one method, you will attach your phone to the end of a string and use Google's Science Journal app to create a graph of its motion as it swings, then measure the pendulum's period based on the graph. In the other, you will tie washers to the end of a string to form a pendulum and use a stopwatch to measure its ...

The "four causes" are elements of an influential principle in Aristotelian thought whereby explanations of change or movement are classified into four fundamental types of answer to the question "why?". Aristotle wrote that "we do not have knowledge of a thing until we have grasped its why, that is to say, its cause." While there are cases where identifying a "cause" is difficult, or in which ...
