Some religions claim that praying for somebody who is sick can have positive effects on the health of the person being prayed for. Meta-studies of the literature in the field have been performed showing evidence only for no effect or a potentially small effect. For instance, a 2006 meta analysis on 14 studies concluded that there is "no discernible effect" while a 2007 systemic review of ...

When a planet moves around the sun, you can plot a definite path for it which is called an orbit. A simple view of the atom looks similar and you may have pictured the electrons as orbiting around the nucleus. The truth is different, and electrons in fact inhabit regions of space known as orbitals ...

8.1.1 The Design of Gadget, Fat Man, and "Joe 1" (RDS-1). The design of the Gadget and Fat Man devices are discussed together since they are basically the same. Gadget was an experimental test version of the implosion system used in Fat Man and were identical in all but a couple of details. A test of the implosion bomb was considered essential due to the newness of the explosive wave shaping ...

Read More Motivation. Depending on your time and interest, you may wish to open the lesson using the brief activity in the Additional Warm-Up and Pre-Assessment section of the Lesson Plan, where "radioactive material"—in the form of glitter—is poured on desks. You should then ask students a series of questions about how they think and feel about their exposure to it.
