History I started using Rasmol in 1997 and was quite impressed. But its as well as PDB file format's limitations for large-scale molecular dynamics (MD) simulations became painfully obvious after some time. My colleagues Dongyi Liao, Wei Cai and myself all started developing our own molecular visualization codes.

Aerodynamics, from Greek ἀήρ aer (air) + δυναμική (dynamics), is the study of motion of air, particularly as interaction with a solid object, such as an airplane wing. It is a sub-field of fluid dynamics and gas dynamics, and many aspects of aerodynamics theory are common to these fields. The term aerodynamics is often used synonymously with gas dynamics, the difference being that ...
