Label - Simple Text Label Basic Labels Creating a font image using a "label:" image, is the more typical way of drawing a font quickly in ImageMagick. The biggest advantage is that generates its own canvas according the current "-background" and "-fill" color settings, which is sized to match the drawn text. For example here is a typical generated label.

Alternative text is text associated with an image that serves the same purpose and conveys the same essential information as the image. In situations where the image is not available to the reader, perhaps because they have turned off images in their web browser or are using a screen reader due to a visual impairment, the alternative text ensures that no information or functionality is lost.
