AP Psychology Test: Sensation & Perception | High School ...

Perception: Perception, in humans, the process whereby sensory stimulation is translated into organized experience. That experience, or percept, is the joint product of the stimulation and of the process itself. Relations found between various types of stimulation (e.g., light waves and sound waves) and their

Perception | Britannica.com

Perception is the process of recognizing and interpreting sensory stimuli. Learn the definition of perception, how it is related to the five senses, how it differs from reality, and more.

What is Perception in Psychology? - Definition & Theory ...

How to Regain Sensation in the Penis. Just because nerve endings register “touch” doesn’t mean that it always triggers “arousal.” And arousal—not just sensation—is crucial to getting and keeping an erection. Low testosterone can cause a loss of sexual desire, and stimulation to the genitals might not initiate the typical response that leads to an erection.

What Causes Loss of Sensation in the Penis? - Impatient
