An acid dissociation constant, K_a , (also known as acidity constant, or acid-ionization constant) is a quantitative measure of the strength of an acid in solution. It is the equilibrium constant for a chemical reaction known as dissociation in the context of acid-base reactions. $K_a = \frac{[A^-][H^+]}{[HA]}$. The chemical species HA , A^- , and H^+ are said to be in equilibrium when their concentrations ...

A typical 5-story large-panel concrete apartment building commonly constructed during 1960–1990 in the states of Soviet Union was used in this study (see Fig. 1). A multiplier 3 was used for middle floor zones to simplify the model, which means that the ventilation air and heating system water mass flow from respective zones was multiplied by 3.

Construction of the Cell Membrane By Becky Polk-Pohlman Barbara Liang. In this learning activity you'll study the structure of the cell membrane and construct it using the correct molecules.

Construction of the Cell Membrane - Wisc-Online OER

Iodine is the fourth halogen, being a member of group 17 in the periodic table, below fluorine, chlorine, and bromine; it is the heaviest stable member of its group. (The scarce and fugitive fifth halogen, the radioactive astatine, is not well-studied due to its expense and inaccessibility in large quantities, but appears to show various unusual properties due to relativistic effects.)

Abstract. XML Schema: Datatypes is part 2 of the specification of the XML Schema language. It defines facilities for defining datatypes to be used in XML Schemas as well as other XML specifications. The datatype language, which is itself represented in XML 1.0, provides a superset of the capabilities found in XML 1.0 document type definitions (DTDs) for specifying datatypes on elements and ...

Butyrate is the preferred fuel of the colonocyte, therefore it is essential. If you haven't read my thoughts on the term "preferred", the point is that what a cell will consume first isn't necessarily the fuel that is the healthiest, though it certainly can be. Other reasons could be to get rid of it, or to access the metabolites.

"I like to start with an evolutionary perspective" — Jennie Brand-Miller. Today at the Food for Thought Conference, Jennie Brand-Miller argued that dependence on exogenous glucose played a critical role in our evolution. I and others disagree for several reasons. Let's look at the main arguments Brand-Miller put forward in support of exogenous glucose.
