Update (Apr 2010): It's been quite a few years since I originally did this comparison. Since then, Charles Nicholson and I created Unit Test++, a C/C++ unit-testing framework that addresses most of my requirements and wish-list items. It's designed to be a light-weight, high-performance testing framework, particularly aimed at games and odd platforms with limited functionality.

The Advanced Passenger Train (APT) was a tilting high speed train developed by British Rail during the 1970s and early 1980s, for use on the West Coast Main Line (WCML). The WCML contained many curves, and the APT pioneered the concept of active tilting to address these, a feature that has since been copied on designs around the world.
