Solar Energy Solutions - Solar Geysers - Solar Electricity

A solar lamp also known as solar light or solar lantern, is a lighting system composed of an LED lamp, solar panels, battery, charge controller and there may also be an inverter. The lamp operates on electricity from batteries, charged through the use of solar photovoltaic panel. Solar-powered household lighting can replace other light sources like candles or kerosene lamps.

Solar lamp - Wikipedia

The Future of street lighting- An average conventional street lamp operating 8 hours a day, 365 days a year, consumes approximately 880kWs of electricity per annum. Our intelligent street lighting solution reduce or eliminate those electricity costs.

Solar Street Lighting

Solar street lights are raised light sources which are powered by solar panels generally mounted on the lighting structure or integrated in the pole itself. The solar panels charge a rechargeable battery, which powers a fluorescent or LED lamp during the night.

Solar street light - Wikipedia

Light Up Your Landscape with Solar Lighting Collections Etc. is delighted to be able to offer an expansive assortment of solar-powered outdoor lights that can be used to brighten up any exterior!

Solar-Powered Outdoor Lights & Solar Garden Lights

ORION SOLAR. When you don't have wired power available, Orion solves your lighting needs with solar powered LED solutions guaranteed to provide light levels and availability for any given industrial situation.

Solar Marine Navigation Light Solutions

GFS-200 Series Street Lights are the most reliable, robust, virtually unbreakable Solar Street Light on the market. Australian Designed Lighting Solutions
