Saxon math, developed by John Saxon, is a teaching method for incremental learning of mathematics. It involves teaching a new mathematical concept every day and constantly reviewing old concepts. Early editions were deprecated for providing very few opportunities to practice the new material before plunging into a review of all previous material.

Saxon Grammar and Writing (SGW) uses the same educational methodology that has popularized the Saxon math books. Courses for grades four through eight are designed so that students can do much of their work independently. Saxon Grammar and Writing 3, a new course for third graders published by Hake Publishing, is also available but is reviewed separately.
