SHARK SPECIES. A series of videos about individual shark species and their basic biology, with a little humor here and there! These are listed in order of release, not alphabetical order.

Shark Academy: Everything About Sharks!

The whale shark is the largest fish that exists in the world today, it can grow up to 15 meters in length. The whale shark prefers the warm surface water in areas where there are upwellings of cold water rich in nutrients, like the ones between isla Mujeres and Holbox island in summer time, since these conditions favor the growth of plankton on which they feed.
