Vaccine Safety: Currently, the United States has the safest, most effective vaccine supply in its history. A long-standing vaccine safety system ensures that vaccines are as safe as possible.

Talking about Vaccines: Vaccine Safety

By the end of elementary school, students should know that by breathing, people take in the oxygen they need to live. This basic knowledge allows middle-school students to develop a more sophisticated understanding of how respiration works in terms of basic macroscopic (e.g., major organs involved) and microscopic (e.g., cellular) processes involved with breathing.
