Riddles are the perfect medium for learning how to manipulate language for many reasons, including students' familiarity with them and motivation for reading them. Here's how riddles can be used in the classroom to stimulate student's metalinguistic awareness.

### **Teaching Metalinguistic Awareness and Reading ...**

The basic idea is that there is one person who knows the answer to the riddle. That person tells the story and then answers only questions that can be answered with a "yes" or a "no" about the situation until the group has figured out the solution. (Sometimes the riddle-teller can answer "not relevant" if he thinks the question is likely to throw people off the track) Some riddles require more ...

The eureka effect (also known as the Aha! moment or eureka moment) refers to the common human experience of suddenly understanding a previously incomprehensible problem or concept. Some research describes the Aha! effect (also known as insight or epiphany) as a memory advantage, but conflicting results exist as to where exactly it occurs in the brain, and it is difficult to predict under what ...

Crazy is such an ugly word but how else can we describe these concepts? They each try to explain some aspect of our universe in a manner that just seems bizarre. Granted most things in the universe are odd already and we haven't even begun to fully understand a fraction of it but there's something particularly disturbing about these theories.

Activities. Find just about any type of periodic table you want in pdf form to print for your students at TheScience Geek's site.; Have students do the "Periodic Table" Magic Square. An check out "Finding the Moment of Inertia for the Magic Square" to delve into the theory of magic squares. Try

these Metal and Nonmetal Wordsearches.; Do the "Getting to Know the Periodic Table" Worksheet.

**The Periodic Table**

Language Arts. The Question-Answer Relationship strategy helps students understand the different types of questions. By learning that the answers to some questions are "Right There" in the text, that some answers require a reader to "Think and Search," and that some answers can only be answered "On My Own," students recognize that they must first consider the question before developing an answer.
