Definition. The term problem solving means slightly different things depending on the discipline. For instance, it is a mental process in psychology and a computerized process in computer science. There are two different types of problems, ill-defined and well-defined: different approaches are used for each.

Problem solving - Wikipedia

Bachelor of Management Studies or BMS is an undergraduate program for management studies offered by many universities throughout the world. The course allows you to obtain the knowledge and skills needed to assume management positions in a wide range of organizations.

Bachelor of Management Studies - Wikipedia

Competency approach to job depends on competency mapping. Competency Mapping is a process to identify key competencies for an organization and/or a job and incorporating those competencies throughout the various processes (i.e. job evaluation, training, recruitment) of the organization. A competency is defined as a behavior (i.e. communication, leadership) rather than a skill or ability.
