We have found a puddle of water in the office room of our house for the past week. There are no water spots in the ceiling and no evidence of water when looking in the attic above. The house is over 100 years old but the office room was an addition that is newer. We just bought the house last month so I cant say how old the addition is, but I wouldn't say more than 20-30 years old.

Why is water seeping up through our laminate wood floor ...

Groundwater is one of our most important sources of water for irrigation. Unfortunately, groundwater is susceptible to pollutants. Groundwater contamination occurs when man-made products such as gasoline, oil, road salts and chemicals get into the groundwater and cause it to become unsafe and unfit for human use.
