Climate Solutions — MacArthur ... - MacArthur Foundation

Changing Climate Is Affecting Agriculture in the U.S. The changing climate presents real threats to U.S. agricultural production, forest resources, and rural economies. These threats have significant implications not just for farmers, ranchers, and forest landowners, but for all Americans. Land managers across the country are already feeling the pressures of a changing climate and its effects ...

Climate Solutions | USDA

Large wildfires in the United States burn more than twice the area they did in 1970, and the average wildfire season is 78 days longer. Research shows that changes in climate, especially earlier snowmelt due to warming in the spring and summer, have led to hot, dry conditions that boost this increase in fire activity in some areas. For much of the U.S. West, projections show that an average ...

Wildfires and Climate Change | Center for Climate and ...

Background . California's major initiatives for reducing climate change or GHG emissions are outlined in Assembly Bill 32 (signed into law 2006), 2005 Executive Order and a regulation to reduce passenger car GHG emissions. These efforts aim at reducing GHG emissions to 1990 levels by 2020 - a reduction of approximately 30 percent, and then an 80 percent reduction below 1990 levels by 2050.

Climate Change | California Air Resources Board
