Report Scheduler Add On User

Task Scheduler is limited in its ability to schedule a task at shutdown. A similar question was asked on Stack Overflow (how-to-schedule-a-task-to-run-when-shutting-down-windows), and the answers there describe several methods other than using the Task Manager, including the Group Policy Editor method, which is described in detail and might be a better way to handle it.

Hi to all How to add 3 dummy values to a variable in webi report or 3 dummy values in a object in universe and bring into the report. When I drag this object into report it should display as row wise 3 values but not as one straight row.

How to Add 3 dummy values to a variable in report or object

Advanced Task Scheduler is an awesome task scheduler, which lets you schedule and automates all your daily tasks: open different documents and web pages, run scripts and files, launch programs, play multimedia files, send emails, shut down and restart your computer, establish and close network connections, perform FTP and file operations, and much more.

5 best Windows task scheduler software to download

Task Scheduler helps with scheduling (the same way you schedule jobs) programs, and scripts. When it isn't working, then the programs and scripts in Windows cannot be launched at the times or intervals as planned. Before resolving the issue, check the last time it worked, and whether you made any recent hardware and/or software changes...
