The example illustrates how difficult it is to deal with non-tariff barriers to trade. The Mexicans could protest the decisions of the US Department of Agriculture, but the Florida growers who were competing with the Mexican growers, in effect, wrote their own regulations.

Chapter 4: The Legal, Political Trade Environment

A simulation is an approximate imitation of the operation of a process or system; the act of simulating first requires a model is developed. This model is a well-defined description of the simulated subject, and represents its key characteristics, such as its behaviour, functions and abstract or physical properties.

Agriculture is the science and art of cultivating plants and livestock. Agriculture was the key development in the rise of sedentary human civilization, whereby farming of domesticated species created food surpluses that enabled people to live in cities. The history of agriculture began thousands of years ago. After gathering wild grains beginning at least 105,000 years ago, nascent farmers ...
