Soil moisture generally refers to the amount of water stored in the unsaturated soil zone, although its exact definition can vary depending on the context, i.e. whether it is defined in relative, absolute or indirect terms, and depending on the reference storage (see Section 2). Soil moisture is a source of water for the atmosphere through processes leading to evapotranspiration from land ...

In astronomy and astrobiology, the circumstellar habitable zone (CHZ), or simply the habitable zone, is the range of orbits around a star within which a planetary surface can support liquid water given sufficient atmospheric pressure. The bounds of the CHZ are based on Earth's position in the Solar System and the amount of radiant energy it receives from the Sun.

Circumstellar habitable zone - Wikipedia

Earth religion is a term used mostly in the context of neopaganism. [citation needed]Earth-centered religion or nature worship is a system of religion based on the veneration of natural phenomena. It covers any religion that worships the earth, nature, or fertility deity, such as the various forms of goddess worship or matriarchal religion. Some find a connection between earth-worship and the ...
