Statistics Through Applications Answers

Statistics is a branch of mathematics working with data collection, organization, analysis, interpretation and presentation. In applying statistics to, for example, a scientific, industrial, or social problem, it is conventional to begin with a statistical population or a statistical model process to be studied. Populations can be diverse topics such as "all people living in a country" or ...

For inventory statistics, go to the Pending Employment-Based I-485 Inventory page.. Q: Why is the wait so long for my employment-based green card? A: A visa must be available before a person can obtain an employment-based green card. Because more people want a green card than there are visas available, not everyone who wants a green card can get one immediately.
