The Financial Accounting Standards Board (FASB) is a private, non-profit organization standard-setting body whose primary purpose is to establish and improve Generally Accepted Accounting Principles (GAAP) within the United States in the public's interest. The Securities and Exchange Commission (SEC) designated the FASB as the organization responsible for setting accounting standards for ...

Financial Accounting Standards Board - Wikipedia

Production is a process of combining various material inputs and immaterial inputs (plans, know-how) in order to make something for consumption (the output). It is the act of creating an output, a good or service which has value and contributes to the utility of individuals. The area of economics that focuses on production is referred to as production theory, which in many respects is similar ...

Production (economics) - Wikipedia

The popularity of cryptocurrencies has soared in recent years, yet they do not fit easily within IFRS' financial reporting structure. For example, an approach of accounting for holdings of cryptocurrencies at fair value through profit or loss may seem intuitive but is incompatible with the requirements of IFRS in most circumstances.
