Highlights The persistence of health inequalities in the modern welfare states of Western Europe is difficult to explain. We hypothesize that it is partly due to persisting inequalities in access to material and immaterial resources. We hypothesize that it is partly due to greater intergenerational social mobility and stronger selection. We hypothesize that it is partly due to consumption ...

In sociology, status attainment or status attainment theory deals largely with one's position in society, or class. Status attainment is affected by both achieved factors, such as educational attainment, and ascribed factors, such as family income. It is achieved by a combination of parents' status and one's own efforts and abilities.

Sociology, a social science that studies human societies, their interactions, and the processes that preserve and change them. It does this by examining the dynamics of constituent parts of societies such as institutions, communities, populations, and gender, racial, or age groups. Sociology also studies social status or stratification, social movements, and social change, as well as societal ...

A social issue is a problem that influences a considerable number of individuals within a society. It is often the consequence of factors extending beyond an individual's control, and is the source of a conflicting opinion on the grounds of what is perceived as a morally just personal life or societal order. [clarification needed] Social issues are distinguished from economic issues; however ...
