The functions of the lymphatic system are: Fluid balance. The lymphatic vessels transport back to the blood fluids that have escaped from the blood vascular system. About 30 liters (L) of fluid pass from the blood capillaries into the interstitial spaces each day, whereas only 27 L pass from the interstitial spaces back into the blood capillaries.

### **Lymphatic System Anatomy and Physiology - Nurseslabs**

Have you spent any time wondering what your lymphatic system does, or if it is healthy? According to Ayurveda, the lymph, or rasa, is always the first body system evaluated and treated. It is hugely important to our health and wellbeing, but is often overlooked in our culture. It is one factor that may play into many so-called “mystery illnesses.”
