Senses definition, any of the faculties, as sight, hearing, smell, taste, or touch, by which humans and animals perceive stimuli originating from outside or inside the body: My sense of smell tells me that dinner is ready. See more.

Senses | Definition of Senses at Dictionary.com

Each sense organ contains different receptors. General receptors are found throughout the body because they are present in skin, visceral organs (visceral meaning in the abdominal cavity), muscles, and joints.. Special receptors include chemoreceptors (chemical receptors) found in the mouth and nose, photoreceptors (light receptors) found in the eyes, and mechanoreceptors found in the ears.

Anatomy Of Middle Ear PPT | Xpowerpoint

The sense of balance or equilibrioception is one of the physiological senses related to balance. It helps prevent humans and animals from falling over when standing or moving. Balance is the result of a number of body systems working together: the eyes (visual system), ears (vestibular system) and the body's sense of where it is in space (proprioception) ideally need to be intact.

Sense of balance - Wikipedia

The sacculus and the utriculus have special hair cells called the macula. The macula are primarily related to which - Answered by a verified Health Professional

The sacculus and the utriculus have special hair cells ...

A. Acoustic Neuroma – A tumor, usually benign, which develops on the hearing and balance nerves, that can cause gradual hearing loss, tinnitus, and dizziness.

Glossary of Audiology Terms, Hearing Loss Terminology

The ear has three major parts: the outer ear, the middle ear, and the inner ear. The outer ear, also called the pinna, includes everything we see on the outside—the curved flap of the ear leading down to the earlobe—but it also includes the ear canal, which begins at the opening to the ear and extends to the eardrum.

Ear Infections in Children | NIDCD

What is an Audiologist. An audiologist is a professional who diagnoses and treats hearing and balance problems. An audiologist has received an Au.D. (Doctorate in Audiology), or a Master's or Doctoral degree from an accredited university graduate program in audiology.

What is an Audiologist
