testing machine. By 1880, he had proven and patented enough of his revolutionary ideas and designs to create an entire line of testing machines and launch his own company. Over the years, Tinius Olsen introduced and innovated application-specific solutions for materials testing that spanned the industrial manufacturing and construction spectrum.

### **Solutions for Construction Testing - Parameters**

usage within the construction industry, the quality of concrete is paramount. Tests must be conducted to ensure the concrete used is in accordance with design, structural, and environmental specifications; the most common and dramatic of these is the compressive strength test. In addition to strength tests, Tinius Olsen

### **Solutions for Construction Testing - pact-egypt.com**

the metals industry, Tinius Olsen has achieved similar results with test machines developed specifically for the plastics industry. In addition, our light force test machines address the testing needs of many other industries including textiles, medical, automotive, aerospace, food, packaging, rubber, adhesives, composites, construction and paper.

### **Solutions for Materials Testing - si**

Solutions for Construction Testing ... for successful testing. Moulds should be manufactured from material capable of retaining its form under heavy usage. Applicable Standards BS 1881-131; ASTM C109 Ordering Information TO-414 Steel Mould for 70.6 mm cube TO-417 Cast Iron Mould for 50 mm cube

### **Solutions for Construction Testing - pact-egypt.com**

Founded in 2006, Construction Testing Solutions are a leading provider of on-site and laboratory testing services. Over the past 10 years, we have established a reputation for excellence in servicing the UK construction, quarry products and civil engineering industries.

### **Construction Testing Solutions | Home - on-site / in-lab ...**

Tinius Olsen is the leading specialist manufacturer and supplier of static tension and/or compression materials testing machines. Tinius Olsen machines are designed for use in Research and Quality Control to measure material's strength and performance.

### **Tinius Olsen, Testing Machines and Equipment : Quotes ...**

Universal Hardness machines from Tinius Olsen offer solutions for all testing requirements. They are capable of ranges usually covering 1-250 kgf, 3-750 kgf, or 10-3000 kgf. Tinius Olsen has systems that can be configured to suit specific needs.

### **Universal Hardness Testing Machines from Tinius Olsen ...**

Olsen retired from the company in 1929 and died in 1933. The company that he started in 1880, now in its 133rd year of operation, is still run by his descendants – now in the fifth generation – and still continues to provide innovative solutions to testing problems. Click here for videos about Tinius Olsen.

### **Tinius Olsen - History - School of Testing**

Tinius Olsen's hydraulic testers have long been recognized as the standard for accuracy, dependability, and versatility in universal testing machines. The many thousands of testers currently in use throughout the world attest to this fact. Now more than ever, the SI series represents the highest standard in hydraulically powered

### **Hydraulic universal Testing Machines - Your Solution of ...**

Tinius Olsen has always been into a global provider of materials testing solutions, but with its powerful, scalable software, lifetime support, and 125 years of testing experience, it has evolved into a supplier with one-of-a-kind capabilities and services.

### **Tinius Olsen Offers Automated Systems for Materials Testing**

For construction materials testing, eliminate the need for inefficient paper-based processes and for re-keying of information by using Agile Frameworks' MetaField® software solution. With MetaField you can enter data one time, in the field or lab, and collect all of the information you need to get accurate results fast.
