Use the Find and Replace features in Excel to search for something in your workbook, such as a particular number or text string. On the Home tab, in the Editing group, click Find & Select.

Find or replace text and numbers on a worksheet - Excel

You could use =VLOOKUP together with two helper columns.. Syntax: =VLOOKUP(value, table_array, index_number, [not_exact_match]) Since VLOOKUP can only compare a single column you need to join your two columns date and time in a single helper column: . In sheet 1 place this in column F and fill it down : =C2 & "-" & D2. This creates our helper column as you can see in the screenshot.
