Sample answer. In today's cosmopolitan world it is unusual to find a major city or country where there are no immigrants. People travel more now than they ever did in the past and populations have had to adapt to this transitional lifestyle much more quickly than in the past.

IELTS Exam Preparation - IELTS Writing Sample #185

What is the MAPS Program? The MAPS Program is a continent-wide collaborative effort among public agencies, non-governmental groups, and individuals to assist the conservation of birds and their habitats through demographic monitoring.

IBP - the MAPS Program

CCSS.Math.Content.7.SP.A.1 Understand that statistics can be used to gain information about a population by examining a sample of the population; generalizations about a population from a sample are valid only if the sample is representative of that population. Understand that random sampling tends to produce representative samples and support valid inferences.
