A flipped classroom is an instructional strategy and a type of blended learning that reverses the traditional learning environment by delivering instructional content, often online, outside of the classroom. It moves activities, including those that may have traditionally been considered homework, into the classroom. In a flipped classroom, students watch online lectures, collaborate in online ...

The question of how education has changed depends on the various dimensions of how we look at education as a whole. For instance, if you reflect on education to mean one having the chance to learn and plan for his or her future you will realize education has not changed much, but if think about the changes in the approaches, methods or techniques of teaching in education a lot has changed.
