Crossrail (to be known officially as the Elizabeth line) is a 73-mile (117-kilometre) railway line under development in England that crosses London from east to west. At each end of the central core, the line will divide into two branches: in the west to Reading and stations at Heathrow Airport, and in the east to Abbey Wood and Shenfield. In May 2015, a section of one of the eastern branches ...

A passive margin is the transition between oceanic and continental lithosphere that is not an active plate margin. A passive margin forms by sedimentation above an ancient rift, now marked by transitional lithosphere. Continental rifting creates new ocean basins. Eventually the continental rift forms a mid-ocean ridge and the locus of extension moves away from the continent-ocean boundary.
