As previously discussed in our post, your SIM can contain and store your information. However, your contacts and text messages stored in the SIM can be recovered if lost but also transferred, edited or backed up by using a SIM card reader, available online, and a PC. A SIM card reader is a USB device but be sure to get one that comes with PC software as this will ensure that you are able to ...

Intensive farming involves various types of agriculture with higher levels of input and output per cubic unit of agricultural land area. It is characterized by a low fallow ratio, higher use of inputs such as capital and labour, and higher crop yields per cubic unit land area. This contrasts with traditional agriculture, in which the inputs per unit land are lower.
