Astrology is a pseudoscience that claims to divine information about human affairs and terrestrial events by studying the movements and relative positions of celestial objects. Astrology has been dated to at least the 2nd millennium BCE, and has its roots in calendrical systems used to predict seasonal shifts and to interpret celestial cycles as signs of divine communications.

On this page: RPGs in General My how and why of roleplaying. Hard SF RPGs Hard science fiction roleplaying games have been my main RPG interest for several years. Hârn Hârn, the game, is by far my favorite RPG system; Hârn, the setting, is one of the best commercial gaming worlds. Swordbearer My second love in fantasy RPGs, Swordbearer is hugely innovative but unfortunately obscure.
