Biology. Explore the science of life by learning about the systems and structures that make up the organisms of our world.

### **Biology - ThoughtCo**

Fight or flight - When a threat appears in the environment, the adrenal glands secrete adrenaline. In answer to this chemical message, the heart pumps blood faster, breathing deepens to take in more oxygen, and the nervous system sharpens perception and memory formation. Other changes also occur to make the body ready to fight or flee from a potential threat.

### **BIOLOGY - University of Washington**

Why a Scientific Format? The scientific format may seem confusing for the beginning science writer due to its rigid structure which is so different from writing in the humanities. One reason for using this format is that it is a means of efficiently communicating scientific findings to the broad community of scientists in a uniform manner.

### **How to Write Guide: Sections of the Paper - Bates College**

Biology is the natural science that studies life and living organisms, including their physical structure, chemical processes, molecular interactions, physiological mechanisms, development and evolution. Despite the complexity of the science, there are certain unifying concepts that consolidate it into a single, coherent field. Biology recognizes the cell as the basic unit of life, genes as ...

### **Biology - Wikipedia**

Killifish have only rarely been addressed in major creationist literature and generally only in response to evolutionists claiming they had evolved some new ability. Killifish deserve a deeper look as they strongly point to a designer.

### **Rapidly Reproducing Killifish Defy Evolution | Answers in ...**

Cetaceans' reproductive organs are located inside the body. Male cetaceans (whales, dolphins, and porpoises) have two slits, the genital groove concealing the penis and one further behind for the anus. Cetaceans have fibroelastic penises, similar to those of Artiodactyla. The tapering tip of the cetacean penis is called the pars intrapraeputialis or terminal cone.

### **Penis - Wikipedia**

In this lesson, you will learn what an organ system is, and you will review each organ system in the human body. This will aid in your study of human anatomy and physiology.
