Looking for a unique GUID to identify a Windows installation

There are significant changes made to Windows Explorer in Windows XP, both visually and functionally. Microsoft focused especially on making Windows Explorer more discoverable and task-based, as well as adding a number of features to reflect the growing use of a computer as a "digital hub".

Features new to Windows XP - Wikipedia

Hey Carl, My biggest complaint about RDS instant clone farms is that you cannot see the status of an image maintenance operation. You get a very generic "Publishing" status on the summary page of the farm, but you cannot see the pending image on each RDS host, and you cannot tell for certain that the host has been replaced by the new image.
