Hadoop with Kerberos - Architecture Considerations

Architecture Overview. Openfiler consolidates several open source technologies on the Linux kernel base to deliver a comprehensive storage management solution that meets the needs of enterprise applications, users and administrators.

Openfiler Architecture | Openfiler

A product requirements document (PRD) is a document containing all the requirements to a certain product. It is written to allow people to understand what a product should do. A PRD should, however, generally avoid anticipating or defining how the product will do it in order to later allow interface designers and engineers to use their expertise to provide the optimal solution to the requirements.
