Installation and operating instructions

For most pumps a decisive element for the quality of the pump during its lifetime is a good and robust shaft seal. Grundfos has many years of experience with the development, production and use of mechanical shaft seals in pumps, and our solutions in this field are contributing significantly to our leading position within pump technology.

Mechanical shaft seals for pumps - Grundfos

Grundfos Pumps For Sale: Grundfos pumps are a mainstay in the residential, industrial and commercial HVAC markets. Their high-tech water pumps and pumping systems are innovations in pump technology. Grundfos pumps are manufactured with high priority placed on product design and materials research, which results in the reliability and efficiency of Grundfos pump products.

Grundfos Pump Distributor | Grundfos Pumps For Sale

The Grundfos HS horizontal split case pump is a single-stage, non-self-priming, between bearing, centrifugal volute pump. The axially split design allows easy removal of the top casing and access to the pump components (bearings, wear rings, impeller, and shaft seal) without disturbing the motor or pipework.
