FORCES . A force is any push or pull that causes an object to move, stop, or change speed or direction.; The greater the force, the greater the change in motion will be. The more massive an object, the less effect a given force will have on the object.; Unless acted on by a force, objects in motion tend to stay in motion and objects at rest remain at rest.

by Casey Luskin Introduction Many critics of intelligent design (including various critics in the April, 28, 2005 Nature article on ID) have stated that intelligent design is an argument for the existence of God, or that it posits an explicitly supernatural creator. This, they might argue, is detrimental to intelligent design for 2 reasons:
