Trust and control are two different things. For me control is the ability to force someone to perform a specific action. While trust is the positive expectation you have that someone will perform ...

### What is the difference between trust and confidence?

Optics is the branch of physics that studies the behaviour and properties of light, including its interactions with matter and the construction of instruments that use or detect it. Optics usually describes the behaviour of visible, ultraviolet, and infrared light. Because light is an electromagnetic wave, other forms of electromagnetic radiation such as X-rays, microwaves, and radio waves ...
