SAFER One ® integrates with multiple chemical gas and meteorological sensors as well as other data sources to create single monitoring platform with an intuitive graphic user interface for the facility. The facility layout is superimposed on Google Map ® with live-traffic and internet weather integrated to provide a real-time situational snapshot of the facility.

SAFER One | SAFER Systems

It's not easy to understand when facility layout is causing significant problems for an operation. Everything in a warehouse or distribution facility can be affected by the way the warehouse is planned and laid out. You may be suffering from over-forecasted demand for product and under-forecasted need for square footage.
