She also identified that the collision was essential to the reaction. Identifying many issues with full recognition of the three components of collision theory (collision with proper alignment and enough kinetic energy), I decided to give a short lecture the following day on the collision theory to firm up the gaps after the Gizmo.

2. Ensures that the test does not have an inordinate portion of keyed answers that are either the longest or shortest of the four alternatives (common for the key response to be either the longest or shortest answer) But if all are balanced then there is no indication of the answer. Make sure that the student can't use this theory
