Evolutionary biology proposes that humans evolved from ape-like ancestors. If this is true then we are nothing more than glorified apes. However, compared to our closest "relatives", scientific research indicates that humans are unique on many fronts, including creativity, personality, abstract ...

The Human Difference: How Humans are Unique Compared to ...

The evolution of morality refers to the emergence of human moral behavior over the course of human evolution. Morality can be defined as a system of ideas about right and wrong conduct. In everyday life, morality is typically associated with human behavior, and not much thought is given to the social conducts of other creatures. The emerging fields of evolutionary biology and in particular ...

Evolution of morality - Wikipedia

To build a science of the person, the most basic question was, and remains, how can one identify and understand the psychological invariance that distinctively characterizes an individual and that underlies the variations in the thoughts, feelings, and actions that occur across contexts and over time?
