In 1994, the Friends of the Jepson Herbarium began a program to provide educational opportunities for a broad audience of professional and amateur botanists. Today, the program continues to serve as a liaison between the scientific community and the public, a role we are dedicated to as we enter our 26th year of public programs.

Dr. Robert Lustig, professor of pediatrics at the University of California at San Francisco, is the star of the video above. While he presents some material that's scientifically sound, he also makes enough errors to warrant a healthy dose of criticism.

The bitter truth about fructose alarmism. | Alan Aragon's Blog

This emphasis on the environmental causes of obesity leads to certain conclusions: first that the treatment for obesity is unlikely to succeed if we deal only with the child and not with the child's prevailing environment, and second that the prevention of obesity – short of genetically engineering each child to resist weight gain – will require a broad-based, public health programme.

Obesity in children and young people: a crisis in public ...
