You missed the mark a bit there. You pointed out that, "Intelligence is not equal throughout the races. Examples of this are evident in the inventiveness of a particular group, what technologies they create, the societal structure they create, their art and their sciences", a statement which in and of itself is a contradiction.

Mutations caused by DNA damage enable a normal cell to become cancerous. This is highlighted by the fact that individuals with mutations in many genes involved in DNA damage recognition, signalling and repair are predisposed to cancer, and that somatically acquired defects in such genes can drive tumour formation.
