Each Active Worksheet can be identified by its own code, for example A5, K3. Make a note of this code in your planning document so that you can quickly find the worksheet you need.

Active Maths

Purplemath. Solving proportions is simply a matter of stating the ratios as fractions, setting the two fractions equal to each other, cross-multiplying, and solving the resulting equation. The exercise set will probably start out by asking for the solutions to straightforward simple proportions, but they might use the "odds" notation, something like this:

Proportions: Simple Exercises | Purplemath
