Although there is no documentary evidence that might clarify how Vermeer learned perspective, abundant resources were at his fingertips. Richly illustrated perspective manuals circulated throughout Europe, and in Delft and nearby The Hague the young painter would have been able to draw lessons firsthand from the architectural paintings of the most sophisticated practitioners of this highly ...

This blog page started out as an attempt to organize all of the foldables, templates, and graphic organizers that I have created. When I first started creating them, this method of organization worked well.

Math = Love: Free Downloads

For long-term success in school, business and life, learning HOW to think is far more important than learning WHAT to think.. Yet rather than serve as the core of any education worthy of a rational human being, we have relegated the teaching of logic, argument analysis and critical reasoning to specialty courses in universities that reach too few students, too late in their education.

As the delta-V for a mission goes up, the amount of propellant required goes up exponentially (or looking at it another way: the amount of payload shrinks exponentially). Large amounts of propellant are expensive, but the higher the mass-ratio the higher the likelihood that the spacecraft will not be reusable.
