ECONOMICS - University of Washington

Inside the back cover of the 17th edition of Economics by Samuelson & Nordhaus there is a "Family Tree of Economics" that graphically summarizes the major trends in the discipline's modern history. It presents the most famous exponents of the main schools of economic thought: Mercantilism, the Physiocrats, the Classical School and Neoclassical Economics — leading to the two modern "endpoints ...

Understanding Economics: Context of This Course

In macroeconomics, chartalism is a theory of money which argues that money originated with states' attempts to direct economic activity rather than as a spontaneous solution to the problems with barter or as a means with which to tokenize debt, and that fiat currency has value in exchange because of sovereign power to levy taxes on economic activity payable in the currency they issue.

Chartalism - Wikipedia
