Talk is a fundamental way children learn, even before they understand what is being said. Children

who come from homes where there are a lot of books and where family members talk about what they have read, for example, have been shown to have better literacy outcomes in kindergarten and successive grades 1. This same principle holds true for mathematics.

### **Support Math Readiness Through Math Talk | NAEYC**

Debates about exam grades and retaking tests tend to coalesce, eventually, around the same arguments. One faction prioritizes subject mastery, the idea that it's more important to continue to move students toward knowledge than to punish them with a bad grade. The other side emphasizes personal ...
