### **Sap Solution Manager Diagram**

In SAP Solution Manager pools typically represent processes. The lanes then represent the different process participants. To use pools you can choose from three different flavors of pools. You can use. Current Process, Pool / Draft Process, and; Pool / Blackbox Process.

### **Collaboration and process diagrams - Solution Manager ...**

Universal diagrams are used to model different sorts of diagrams including value chain diagram, capability maps, application landscapes, process landscapes, or any other kind of diagram. The universal diagrams don't follow given, strict semantics (in opposition to the BPMN collaboration and process diagrams ) but allow the user to just describe graphically what he wanted to describe.
